

Locker Donation

Sylvania Township trustees have approved the donation of 16 lockers for personal protective equipment to the Spencer Township Fire Department.

Chief Jeff Kowalski told the trustees at a recent meeting that the Spencer department is bringing on more people and intending to man their station at all times.

With the remodeling of one station and construction of three others the department earlier sold many lockers which weren't usable in the facilities.

He said the department still had some. The 16 to be donated to Spencer Township are at least 10 years old and have a total value of under \$2,500 according to the resolution approved by trustees.
