

## **New Fire Hoses**

Sylvania Township trustees have approved the purchase of hoses of varying types for the Sylvania Township Fire Department.

Chief Jeff Kowalski told trustees that the department hoses are outdated and the majority is not in compliance with national standards.

The department received a grant, of \$99,500 from the FEMA Assistance to Firefighters Operations and Safety, to use for replacement of the hoses.

Although three bids were received, Chief Kowalski said that only the one from Finley Fire Equipment had all of the specifics in the bid packet.

Trustees voted to accept that bid of \$82,800.
