

Ridgewood Trail Rezoned

Sylvania Township trustees have approved a zoning change for about four acres along Ridgewood Trail for a proposed 13-home subdivision.

The property is at the rear of 3427 McCord Rd., which will retain its rural residential zoning. The zoning change for the remaining acreage is now residential planned unit development.

The houses planned for the development will be similar to other houses in the area and are expected to cost from \$250,000 to \$350,000.

Jerry Parker, an attorney representing the developer, said his client will construct a sidewalk in front of the homes and extend it to McCord even though he has no control over the lot facing McCord.

Ridgewood runs west off McCord between Sylvania and Central avenues.
