

Yard Work

Several yards which have created neighborhood nuisances will be improved soon as the result of action taken by the Sylvania Township board of trustees.

Daryl Graus, planning and zoning manager for the township, said the properties have been the subject of resident complaints and that he had inspected them to determine that they fell within the guidelines to allow the township to act.

He said debris in yards was at the center of some complaints, but that most had to do with uncut grass and weeds.

The properties are: 5954 Blossman, 4911 Courville, 4145 Forestlawn, 3210 and 3226 McCord, 3415 Zone, and 5661, 5723 and 5713 Mallard Pointe. The latter three are vacant lots, Mr. Graus noted.

Work on the properties will be done by Barron's Lawn Service and a bill will be sent to the property owners. If it's not paid within 30 days the amount will be forwarded to the Lucas County Auditor's office to be placed on the tax duplicate for work done on the properties.
